

Zohaib Ali Dayo

AI Engineer · Data Science & Full-Stack Developer · Technical Instructor

Karachi, Pakistan +92 349 3237141 zuhaibaliid@gmail.com zuhaibaliidayo.vercel.app github.com/DotZohaib [LinkedIn](#) [CodeWithZohaib](#)

Summary

BS Information Technology graduate-track professional combining applied AI and Generative AI, data science and full-stack development with hands-on technical teaching. Builds Python machine learning, computer vision and LLM/agent workflows (LangChain, RAG) alongside MERN and Next.js applications. Teaches at NAVTTC and founded CodeWithZohaib, a free bilingual programming platform.

Skills

AI & Generative AI

Generative AI AI Agents LLM apps
Prompt Engineering RAG LangChain
OpenAI API

ML & Data Science

Machine Learning Deep Learning
Computer Vision NLP TensorFlow
PyTorch scikit-learn OpenCV Pandas
NumPy Matplotlib Seaborn Power BI

Programming

Python JavaScript TypeScript SQL
Java C

Frontend

React Next.js Tailwind CSS
HTML5/CSS3 Three.js

Backend & Databases

Node.js Express REST APIs MongoDB
PostgreSQL

Tools

Git/GitHub Docker Jupyter Postman
Vercel Linux

Education

BS Information Technology

Sindh Madressatul Islam University, Karachi
2022 – 2026 · Focus: AI & Machine Learning

Languages

English · Urdu · Sindhi — Proficient

Experience

AI Teacher · AI Web Development Teacher · Data Science Teacher

NAVTTC, Pakistan

- Teach AI fundamentals, Python and machine learning through practical, project-based sessions.
- Instruct data analysis, visualization and model building with Python libraries.
- Deliver AI web development training, integrating AI tools into modern web applications.
- Mentor students through hands-on, industry-oriented projects.

Founder & Lead Developer

CodeWithZohaib — programming-education platform

- Built the platform with Next.js, React, TypeScript and Tailwind CSS: 25+ free tracks and 1,300+ lessons across Python, JavaScript, React, Angular, Node.js, SQL and MongoDB.
- Designed a 10-point lesson format with English explanations, Roman Urdu analogies, code walkthroughs and practice tasks.
- Authored bilingual courses in Pandas, Matplotlib & Seaborn, and IT fundamentals.

Freelance Data Scientist

Self-employed, Remote · 2021 – Present

- Cleaned datasets, built predictive models and produced visualizations for project-based clients.
- Turned analytical findings into clear recommendations for decisions.

Software Developer Intern (MERN Stack)

XPACE Technologies, Karachi · May 2024 – Sep 2024

- Built responsive React and Tailwind CSS frontends and features through to MongoDB integration.
- Developed REST APIs with Node.js and Express.
- Worked with IT and development teams in three-week agile sprints.

IT Officer

Informia Tech, Karachi · Apr 2025 – Oct 2025

- Resolved hardware, software and network issues through scheduled maintenance.
- Configured LAN, subnetting and network security for active users.

Selected Projects

LAN Messenger (WhatsApp-style, offline)

Fully working messaging system that runs across a local network with no internet connection.
Private repository · code available on request

EdgeMoon: Offline Bilingual Voice Translation

Prototype pipeline for Sindhi/Urdu speech recognition and translation that runs locally on edge devices: Conformer-CTC model, INT8 quantization, speech-to-text, translation and text-to-speech stages, and a LAN voice-bridge demo.
Python · PyTorch · NLP · [Code](#)

Hotel Feedback with AI

AI-powered application for analyzing hotel guest feedback.
Private repository · code available on request

CodeWithZohaib Academy (source code)

Source code of the programming-education platform with 25+ tracks and 1,300+ lessons.
Next.js · TypeScript · Tailwind CSS · [Code](#)

Certifications

Data Science Certification — Oracle	2023
Data Analytics — Berlin School of Business & Innovation	2023
Certified Cloud Applied Generative AI Engineer — Governor Sindh Initiative	2024
Google Data Analytics — Google (online course)	2025
